NEWS RELEASE
SafeLight Lafayette
May 6, 2009

Tony Tramel, Director of the Traffic and Transportation Department, advises the following three additional SafeLight intersections are currently under construction and anticipated to be activated in the next 30-60 days:

1. Congress Street at Guilbeau Road
2. Camellia Boulevard at Settlers Trace
3. Camellia Boulevard at Kaliste Saloom Road

There will be another press release announcing the dates and times these locations will be activated. This notice will be provided 3-7 days prior to activation once it has been determined all systems are operating correctly.

These three new locations are in addition to the intersections currently in operation at:

1. Bertrand Drive at Dulles Drive/Billeaud Avenue
2. Johnston Street at Foreman Drive/Woodvale Avenue
3. University Avenue at Agnes/Simcoe Street
4. East Gloria Switch at I-49 Frontage Road
5. Johnston Street at N/S College
6. Simcoe Street at Pinhook
7. University Avenue at I-10 East
8. Ambassador Caffery Parkway at Dulles Drive
9. Ambassador Caffery Parkway at Congress Street

A total of 29 locations are identified for SafeLight locations which are noted at the following weblink - <http://www.lafayettela.gov/traffic/safelightlocations.asp>. There are 188 signalized locations maintained by the Traffic & Transportation Department.

This announcement is consistent with all previous press releases related to the SafeLight and SafeSpeed locations.

All motorists should be reminded that each of the SafeLight locations is also a fixed SafeSpeed location. Motorists who travel through the SafeLight location and exceed the posted speed limit may be issued a notice of civil violation by electronic enforcement equipment as part of SafeSpeed Lafayette.
